

Chapter 37 Vocab

Make vocab cards for the following 35 words:

- Neuron (Review from Ch 32)
- Brain
- Ganglia
- Cell body
- Dendrite
- Axon
- Synapse
- Neurotransmitter
- Glia (Review from Ch 32)
- Sensory neuron
- Interneuron
- Motor neuron
- Central nervous system (CNS)
- Peripheral nervous system (PNS)
- Nerve
- Membrane potential
- Resting potential
- Sodium-potassium pump (Review from Ch 5)
- Hyperpolarization
- Depolarization
- Graded potential
- Action potential
- Threshold
- Refractory period
- Myelin sheath
- Oligodendrocyte
- Schwann cell
- Nodes of Ranvier
- Saltatory conduction
- Excitatory postsynaptic potential
- Inhibitory postsynaptic potential
- Temporal summation
- Spatial summation
- Acetylcholine
- Endorphin
